VOL. IV. RALEIGH, N. C., THURSDAY EVENING, APRIL 8, 1869. NO. 203.

The Daily Sentinel.

JOSIAH TURNER, Jr., EDITOR.

For the Sentinel.

PRINCETON, N. J., March 31st, 1869.

Hon. Josiah Turner, Jr.:

DEAR SIR:—With much mortification I read in your issue of March 24th, the statement of an assault made upon yourself in Raleigh, by your political adversaries. As I have been especially interrogated by men of standing in this place, I have determined to give you the substance of their remarks, and also some facts which naturally flow from the nature of the case. The men to whom I allude, are men of both parties, hence their opinions are not those excited by hatred or prejudice. Now, Mr. Editor, what could possibly have been the cause of the attack? It could not have been the article on carpet-baggers, for they have clearly proven to every observing mind by their sanction of the article called "Work," that nothing can be too severe or revolting to them. If they really are such a virtuous party, and were wounded by the pretended article, why did they not give us some indication of their disapprobation of the article "Work?" Why, it anything published is too severe to be perused, did they not pounce upon the author of "Work" and drive him from their ranks, as one unworthy of their associations and confidence. Does not inconsistency and deception lie concealed beneath this apparently gaudy exterior? Even granting that the article on carpet-baggers was improper, which is difficult to do, was that a proper manner for public men to conduct themselves? No, sir; they were not enraged at the above named article. The cause of their anger is this: You have stood as a strong pillar of protection against the overwhelming load of destruction held in the hands of the Radicals, and threatening overthrow to the truest interests of the State. And you have succeeded admirably in exposing all their corruptions and frauds; hence their animosity. Now, it was their intention to rid themselves of this dragoon of the people's liberties and interests, and then have free reign for all their future illegal proceedings. They knew that you had branded them with disgrace; that their constituents were losing confidence in them, and here is the source of all their furor. With shame be it said that the Governor of the State so far forgot the dignity and responsibility of his station, as to mingle in a public riot. Is this setting a good example to the people of the State? Not only does it degrade our officials in the estimation of the citizens, but, in addition, it portrays the Republican spirit in its true colors—That act says to every man that the Republican party intend to rule by the terrors of assassination, if they are opposed; and that every one must succumb to their authority or encounter death. Does it not remind one of the dark ages of Rome, when men were half enlightened, and public men condescended to brawls and riots? Surely it argues ill for the progress of enlightenment, when the officials of a community engage in committing an unlawful act, and a horrible outrage. Is this the freedom the party have vaunted so much? Is this General Grant's peace?

I candidly ask the man who battled in the Northern army if this is the security for which he perilled his life, I ask the widows and orphans if this condition of affairs in any way consoles them for their losses. No; the ghastly, bleaching bones of many a brave soldier cry out too sadly and truly that if this continues, all their blood has been shed in vain, and union and harmony are gross deceptions. The party are not content with ruining the credit of the State, but must needs personally assault all who dare obstruct them in their destructive course. Combine these facts with the action of the Governor in the Alamance disturbance, and what a sad future do they foretell. They say that negroes may insult our sisters and friends, and be protected by the authorities who, instead, should order their apprehension and punishment. Oh! it is terrible to behold, and sickening to contemplate! To think that the good old State has sunk so low as to have men at her head who encourage and even *take part* in riotous proceedings. What action then is demanded from the people? Let them treasure this up in their minds and the time is yet coming when they can recompense these men. Let them say to the Radicals, we trusted you when our interests were in jeopardy and you neglected your duty to engage in intrigues and even open riots.

Such, Mr. Editor, is the general tenor of opinion here in regard to the matter, unadorned and unornamented, yet bearing on its face the impress of truth and sincerity. I have taken special pains to find the opinion of all, and each of them, irrespective of party, agree that it is an alarming condition for us, and one which should awaken even the most obtuse observer. If this is the serious turn it has given here, how should it arouse the people of the State, the honest and upright, whom these transactions most deeply interest.

Very respectfully yours,

GAMMA.

Professor Robley Dunglison, the distinguished medical author, died in Philadelphia, on Thursday evening, of heart disease and dropsy. Dr. Dunglison was a native of England. He removed to the United States forty years ago. He held at different times Professorships in the Universities of Virginia and Maryland, and in the Jefferson Medical College of Pennsylvania. He is most widely known as the author of several valuable medical works, the chief among which are the "Dictionary of Medical Science," published in 1833, "Elements of Hygiene and Human Health," "General Therapeutic and Materia Medica," published in 1836, "New Remedies," in 1839 and "Human Physiology." Over one hundred thousand copies of his works have been printed. He was a member of numerous literary and scientific societies in both Europe and the United States.

Henry B. Dawson is making the *Historical Magazine*, of which he is the editor, the repository of many very valuable papers.—The number for February contains what never before has been printed, Gen. Robt. E. Lee's final report of the Pennsylvania Campaign and Battle of Gettysburg; also a curious article on "Slave Marriages in Massachusetts." The March number will contain Gen. Meade's report of the battle of Gettysburg.

CAUSE AND EFFECT.—There is this difference between a horse race and a boat race: The best horse very often is made to lose a race by being "hard pulled," whereas the best boat wins through the same means.

CASH POLICIES!
CASH DIVIDENDS!

DIVIDENDS PAID ANNUALLY, COMMENCING AT THE END OF THE YEAR.

Dividends may be used to reduce the annual Premium or increase the Cash value of the Policy.

NON-FORFEITING CASH PLAN.

The Ætna issues Policies on the various forms of whole life and endowment insurance, with dividends on the contribution plan, which may be applied to the reduction of each annual premium after the first, or the full premium, may be paid each year and the dividens applied to reduce the number of annual premiums, together with the period fixed for the maturity of the insurance, so that endowments can be paid to the insured before the time originally specified, and life policies before death.

By this plan of applying the dividends to lessen the cost of the insurance on the original policy, instead of increasing the amount of insurance, and of course its total cost, and the policies will become self-sustaining much sooner than in other companies; and in case of inability to continue payments, give a larger paid-up-policy.

When, by adding the dividends to the Cash Value, the accumulations on any Policy shall have become sufficient to keep the same in force for its *full amount*, without further payments, the assured may, at his option, either continue payment of premiums—and enlarge thereby the annual additions to its Cash Value—or discontinue them; and in either case, when the accumulations shall have become equal to the sum insured, the annual dividends on the Policy will be declared as per contract of said sum, and *paid* in cash, and upon surrender of said Policy the sum insured thereby will be paid in *full*, without regard to the time fixed therein for its payment.

The system of applying the dividends is peculiarly advantageous to the assured, securing, at an increased age, not only relief from further payment of premiums, but, at the same time, an annual income until death, unless he shall have previously received full payment of the Policy.

The New York *Insurance Monitor* says of the ÆTNA:

"No Life Insurance Company ever achieved so complete a success as this popular institution.—Its popularity is altogether unprecedented in the annals of commercial enterprise in this country."

LIFE INSURANCE.

The Most Vigorous and the Most Liberal Insurance Company in the Country.

BROOKLYN LIFE

INSURANCE COMPANY,

141 Broadway, N. Y.

ASSETS OVER

$1,000,000!

CHRISTIAN W. BOUCK,.....*President.*
ABRAM D. POLHEMUS.....*Vice President.*
WILLIAM M. COLE.....*Secretary.*
D. P. FACKLER.....*Consulting Actuary.*
DANIEL AYRES, M. D. LL.D.. *Med. Examiner.*

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH!

The BROOKLYN LIFE is the only Company in the country which guaranties a definite surrender-value to every Policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every Policy issued. Should any Policy-holder become unable to pay his premiums, he can thus know the cash worth of the Policy at any time after two annual premiums have been paid.

This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly evince the determination of the officers to make it the MOST LIBERAL Life Insurance Company in the United States, are:

1st TOTAL REMOVAL OF ALL RESTRICTIONS ON TRAVEL AND RESIDENCE. The Assured may travel or reside anywhere they choose, the world over without extra premium or special permit.

2d A Loan of one-third of the Premium to the Policy-holder Annually.

3d. All Policies are non-forfeitable after the full annual premiums have been paid.

4th. Rates as low as are consistent with financial soundness, and less than those of almost all Companies which accommodate their assured with loans.

5th. Dividends annually (after second year) in cash. Dividends are divided on the CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. P. Fackler, now Actuary of this Company and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

6th. Promptitude in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully exemplified in its rapid and healthful growth, is a convincing proof of the confidence reposed by the public in its soundness, in tegrity and liberality.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

THURSDAY, APRIL 8, 1869.

CHIEF JUSTICE PEARSON TO GOV. HOLDEN.

"I am sorry, Governor, that the Court has ordered one of your officers to jail for contempt."

Governor Holden: "Court or no Court, Chief Justice or no Chief Justice, d——n me, Sir, if my officers go to jail until you go over the dead bodies of my militia."

Governor Holden as he is hurrying to the mob on Market Square, followed by a posse, meets a Minister of the Gospel, and without the least provocation raises a big black stick, and cries out with the voice of a white-livered coward, "Who are you, Sir?"

Correspondence.

STATE OF NORTH CAROLINA,
EXECUTIVE DEPARTMENT,
ADJUTANT GENERAL'S OFFICE,
Raleigh, April 7th, 1869.

Hon. Josiah Turner, Jr., Sentinel Office, Raleigh, N. C.:

SIR:—Having heard that an attempt was made on your life, last night, I have set two detectives at work upon the case and would like an interview at your earliest convenience to obtain any information that may aid in pursuit of the offender.

I have called twice at your office this morning but failed to see you.

I am authorized to say if you will state on honor that you believe an attempt has been made to assassinate you, a reward of *five hundred dollars* will be at once offered for the arrest of the criminal.

By order of the Governor,

Very respectfully
Your obt. servt.
A. W. FISHER,
A. G. & Ch'f. O. F.

SENTINEL OFFICE, April 8, 1869.

A. W. Fisher, Adjutant General:

SIR—I have received your communication of the date of yesterday, in which you say you called twice at my office but failed to see me. I never heard of the call until you so informed me in your note. My Book-keeper, Mr. Ramsay, informed me that one Mr. Boxler had called to get the particulars of the attempt to assassinate me, when I directed him to say I would not talk with Mr. Boxler. I gave no reason at the time, but my reason was, that Boxler had accompanied the Speaker of the House, Joseph Holden, with his mob, all armed, and, as I think, to take my life at the depot. Mr. Ramsay says he saw you in the street, near our office, but you did not speak, nor did Boxler speak to him of your presence. You say "you have two detectives at work upon the case," and you are authorized to say that if I will state, upon honor, that an attempt has been made to assassinate me, the Governor will offer a reward of $500 for the arrest of the criminal.

As to detectives, they are not officers of the law, nor do I recognize your right or duty to call out your militia or detectives unless called upon by the civil authority, when that power shall be unable to execute the law.

I deem it proper to add, that last night was not the first time that criminal violence had been attempted upon my person. As to the last attempt, I can only State what you have seen in the *Sentinel*. Since that public statement giving the particulars of being fired upon through my window, I heard Mr. J. W. Watson who lives near our office say, he heard the report of the gun, and soon thereafter heard a man running rapidly by his house, and he remarked at the time some one had been shot. This is all that I can state except the fact that Gen. Estes, member of the Legislature from New Hanover, before the last attempt at assassination, was heard to say in the presence of some three or four persons, that if any person would shoot Joe Turner even in the back he could be pardoned immediately, or it might be, have his pardon in his pocket when he committed the act.

The first attempt upon my life was on the 20th of March last. Joseph Holden son of the Governor and Speaker of the House of Commons having threatened to shoot me on sight, engaged a number of armed men in the morning to meet him at 5 o'clock in the evening upon the arrival of the train, upon which he had been informed I was to come. According to this preconcerted arrangement the Speaker of the House, with C. L. Harris Superintendent of Public Works, C. M. Parris keeper of the Capitol, Jenkins Chief Clerk and son of the Treasurer, B. F. Menninger, Clerk and brother of the Secretary of State, Fab Boxler, whom I have before mentioned, Lieutenant Pike, and others, were at the depot, armed with clubs and deadly weapons, to attack me. By timely drawing a pistol and giving notice if they advanced I would fire upon them, they halted until the police came up and arrested them.

The Governor, himself, stated, in a public speech, that he was cognizant of what his son, the Speaker of the House, had said and done, and he approved it all.

I should, therefore, have some hesitation in accepting his offers of redress through the military, even if that were the proper channel through which to punish offenders against the criminal law, in a State with a constitutional government.

As you are a stranger, with little or no acquaintance with our laws or people, allow me to suggest that you have an interview with Judge Watts instead of with me; his Court and Grand Jury are now in session, and I have no doubt his Honor will tell you that I should rely upon him and the Grand Jury and peace officers of the State and not upon you and the military. He will tell you that you go beyond the sphere of your duty in calling out de-fenders and militia. His Honor will also tell you that you are in error to require me to "state, on honor, that an attempt had been made upon my life," and that you should require of me to swear it upon the Holy Evangelist of Almighty God.

With this statement of facts, I subscribe myself as I am,

JOSIAH TURNER, Jr.

EDITORIAL NOTES AND GLEANINGS.

1. Was the doctrine of the *right* of a State to secede from the Federal Union settled by the appeal to arms? Such seems to be the almost universally received opinion. Both North and South are accustomed to say, that secession is forever put to rest by the arbitrament of the sword. That we are not disposed to controvert.—The point with which we start is altogether different. We repeat it. Was the *right* of a State to secede settled? We agree with the *Statesman* in the opinion that that question was not determined, as it was not submitted to the great test. "What was brought to that test was the question whether the Southern States had the *power* to effect their separation by arms; and that and no other was the point decided." Great principles are obscured or deserted under the heavy clouds of defeat. Men will surrender the correctness of a principle when it is not involved in the contest at all. We are not contending whether secession was right or wrong. That issue will probably never be before the American people again. But we insist that its "heresy or othodoxy" was not under consideration during the war. It was altogether a question of *power*.

2. Father Prout was a Scotchman. We have forgotten his real name, although only two or three years ago we read an amusing sketch of him in *Blackwood*. He was a Catholic Priest resident in London, and a man of learning and "infinite jest." He once perpetrated "just for fun" two amusing parodies on Wolfe's *unique* and beautiful poem, *The Burial of Sir John Moore*.—In the *Atlantic Monthly* for April, a Mr Johnson contributes a paper to prove that this poem was written by a German and not by Wolfe. It turns out that he has been imposed upon by Father Prout's parodies that were written in French and German, and in turn has imposed upon the editor of the *Atlantic*. The whole thing is a very good joke and deserves mention. Father Prout died a few years ago. His clever parodies appeared first in *Bentley's Miscellany*.

3. The New York *Galaxy*, one of the best of American monthlies, makes this wise remark: "The stability and durable prosperity of the National government must still depend upon the retention of, and adherence to, the original design and symmetry of our system. The preservation of the State governments, with all their original and rightful powers, is essential to a maintenance of the National government." This is a political truth of the first importance, and any serious departure from it will entail upon us the most direful results.

4. The *Galaxy* contains some remarks concerning the low state of art, in connection with the stage which are worthy of note. It is known to all what a *furore* there is for immodest displays upon the stage. *Black Crooks* and *White Fawns* and *Can Cans* will attract, when the legitimate drama will not. The *Galaxy* protests against the style of *by on* exhibition nightly, in certain theatres, and, in the interest of true art, observes:

"We have now before us the photograph of half a dozen of the most famous stage dancers of the hour, the display of whose forms is said to have induced the wildest admiration of untold multitudes of gazers; and we have also before us photographs of half a dozen of the models or ideals of the perfect female figures, which the genius of antique Greece left for everlasting study and admiration. The contrast between the symmetery, grace, and delicacy of the antique outline of the limb and licentious legs of the modern spectacular ballet dancer is as great as it well could be.

If the exhibition of legs is to continue as one of the chief attractions of the modern stage, it would be well to get a supply characterized by symmetry, grace, and delicacy, in place of those that nature or stuffing have swelled to uncouth and obnoxious proportions."

THE NATIONAL DEBT.

The best way of paying off the tremendous National debt has long puzzled financiers, and will tax to the utmost Secretary Boutwell's ability. The debt, we believe, amounts to some $1,400,000,000. It is enormous. The latest plan suggested is in the Baltimore *Home Journal*. We have only room for the following, as to the speediest and surest way of reducing the debt:

"How can this be done? Simply by authorizing the issue of enough "greenbacks," (which will increase the currency about five per cent) to redeem and cancel the bonds held by the National Banks, thereby substituting a non-interest bearing debt of $350,000,000 for a similar amount of debt now bearing 6 per cent. interest in coin, thus saving their constituents $20,000,000 interest in coin annually, and giving them a currency which they prefer. This step would shorten the distance to specie payments very materially, and give the public, both here and abroad, increased confidence in the Government's determination to pay its debts.

Apply this $20,000,000, and the interest saved annually, to the reduction of the National Debt bearing interest, and in the incredible short space of 33 years not one dollar of the $2,233,187,986 of interest bearing and matured debt will remain unpaid."

DEMOCRATIC GAIN.—The Democratic Candidate for Mayor of the City of Cleveland, Ohio, is elected by over one thousand majority—a gain of over 3,000 votes. Grant carried that city by 2,115 votes. Another evidence of the ebbing tide of Radicalism. Cleveland votes some 13,500.

A. T. Stewart, Horace Greeley, and William Orton have been appointed by the Postmaster General a commission to effect the exchange of the present site for the new postoffice in New York city for another site at the upper end of City Hall Park.

Mr. Jones was the author of the bill.—It did not reflect upon the incompetency of the Attorney General, but *this* was not the duty of that officer.

Mr. Sweet then addressed the Senate, and referred to the sad event, as another warning, and another chastisement, by the All Wise Ruler of the Universe.

Mr. Lassiter had known the deceased for many years, and paid a fitting tribute to his memory. Mr. L. spoke of the uncertainty of life—and the certainty of death—that we who have been spared, should be thankful, and should learn a lesson of wisdom from this sad dispensation of Providence.

On motion of Mr. Justice, of Rutherford, the rules were suspended and the report of the Committee of Conference on the School Bill, was taken up.

Messrs. Jarvis and Graham made a minority report, recommending to the House not to recede from the House amendment, to strike out the 33rd section. [The 33rd section gives the voters of any Township the power to continue the school more than 4 months in a year by a vote and the tax must be levied in said Township for that purpose.]

Mr. Jarvis spoke in favor of the minority report, which after considerable discussion was adopted by the following ballot:

AYES—Messrs. Allison, Argo, Armstrong, Ashworth, Banner, Barnes, Biddle, Davis, Davidson, Ellis, Fereben, Foster, Gatling, Gibson, Gilbert, Harris, of Franklin, Hawkins, Hicks, Hinnant, Hodnett, Humphries, Jarvis, Justus, of Henderson, Justice, of Rutherford, Kelly, of Davie, Kelly, of Moore, Long, of Chatham, Long, of Richmond, Malone, McMillan, Moring, Moore, of Alamance, Nicholson, Pou, Proffitt, Ragland, Robinson, Shaver, Smith, of Alleghany, Smith, of Wayne, Thompson, Vestal, Waldrop, Welch, Williams, of Harnett, Williams, of Sampson, and Wilson.

The report of the Committee as amended by the minority report was then adopted.

On motion of Mr. McMillan, the bill to amend the charter of the town of Magnolia was taken up and passed its several readings.

Mr. Laffin, from the Committee on Internal Improvements, reported back a bill to sell certain N. C. Railroad stock.

A motion to suspend the rules failed to put it on its second reading.

A motion to suspend the rules to make it the special order at 4½ o'clock, passed.

Mr. Welsh moved to indefinitely postpone.

Mr. Seymour said that this bill could not pass at this session, without the most violent opposition. He would fight it at every step, by all means. He said the Railroad stocks are the only means that the State has to relieve herself from debt. He was not willing to sacrifice all that at this late day of the session. He, therefore, hoped the motion to indefinitely postpone would prevail.

Messrs. Welsh, Pou and Malone favored the motion to indefinitely postpone.

Mr. Welsh called the previous question. The motion to postpone indefinitely prevailed by the following vote:

YEAS—Messrs. Ames, Armstrong, Ashworth, Banner, Barnes, Blair, Biddle, Davis, Davidson, Ellis Fereben, Forkner, French, Gibson, Graham, Gunter, Harris, of Franklin, Harris, of Wake, Hicks, Hinnant, Hodgin, Hodnett, Hoffman, Humphries, Jarvis, Justus, of Henderson, Justice, of Rutherford, Kelly, of Davie, Kelly, of Moore, Leary, Long, of Chatham, Long, of Richmond, Malone, Mayo, McMillan, Mendenhall, Moore, of Alamance, Moore, of Chowan, Nicholson, Painter, Parker, Pou, Proffitt, Ragland, Robbins, Seymour, Shaver, Sicgrist, Smith, of Alleghany, Smith, of Martin, Smith, of Wayne, Stanton, Sweat, Thompson, Vestal, Waldrop, Welch, White, Wilkie, Williams, of Harnett, Williams, of Sampson, Williamson and Wilson.

NAYS—Messrs. Argo Barnett, Carey, Cawthorn, Crawford, Dixon, Downing, Estes, Foster, Horney, Hudgins, Laffin, Merrill, Morris, Peace, Price, Renfrow, Reynolds, Sinclair, Stevens, Vest and Wiswall.

On motion of Mr. Estes, the House adjourned.

THE MORNING STAR.
AGAIN ENLARGED AND IMPROVED.

This well established and popular Daily Newspaper has recently been greatly enlarged and improved (the second enlargement in eighteen months) and is confidently offered to the people of the two Carolinas as second to no daily journal in either of those States.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and constitutions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion**, **Listlessness**, **Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice** or **Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often of vastly more value where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this *Pill* are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the nations of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protection against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a protection against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When used as long as life could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

NEW ADVERTISEMENTS.—Petition for dower by Mary Richardson.

M. Grausman, Merchant Tailor.

Important Auction by J. M. Towles.

THE CITY CEMETERY.—A lady who has lately visited our city burying ground, makes the following suggestion. There is sad neglect, and those who own lots ought to either have them cared for themselves, or employ the Sexton to do so, who will gladly comply with any request made to this end for a small compensation. The Germans are careful in beautifying the city of the dead, and Americans would do well to copy their excellent example in this particular.

SEND ON YOUR CLUBS.—We hope the friends of the *sentinel* will go to work at once and make up clubs of subscribers to our Daily, Semi Weekly and Weekly. We will send a copy free to anyone who will make up a club of ten subscribers to either of our issues, the money accompanying the order in every case. Now is your chance to get a copy *gratis* The price of the Daily is $10 a year, or $5 for six months. The Semi Weekly is $5 a year, or $2,50 for six months. The Weekly is $3 a year, or, $1,50 for six months.

BRIGNOLI.—The great singer holds forth to-night in Tucker Hall.

GLORIOUS!—It is now generally understood that the hands will actually adjourn on next Monday. It will excite universal joy. What a saving to the State will begin on next Tuesday—no less than $1500 a day, according to the *Standard*. Many of the hands have already left, and others are hastening away. Farewell, farewell, and peace go with you. It is to be hoped that they will become so enamored of their homes that they will agree to remain there the remainder of their lives.

DEATH OF A SENATOR.—Mr. Richard I Wynne, Senator from Franklin county, died last night at Cooke's Hotel.

In justice to our Reporter of the Senate, we state, that his report of the debate on the bill making the act of wearing a mask, a felony, was much longer than appeared in yesterday's *sentinel*. For the want of space we were compelled to omit a large portion of it.

Our paper has been given up to the reports of the nearly six months proceedings until our readers are sick *ad nauseam*. We will give what is important and nothing more.

[From the Springfield Republican.]

HINTS CONCERNING KEROSENE—A REMEDY FOR SEVERE BURNS.

Scarcely a week passes during the winter months but we read accounts of frightful accidents from kerosene lamps exploding and killing, or scarring for life, men, women, and children. A simple knowledge of the inflammable nature of the fluid would probably put a stop to nearly all the accidents. As the oil burns down in the lamp, a highly inflammable gas gathers over its surface, and as the oil decreases the gas increases. When the oil is nearly consumed a slight jar will often inflame the gas, and an explosion is sure to follow, dealing death and destruction. A bombproof lamp is now in use in Newark, N. J., the flame of which cannot be turned so high as to explode the gas. If the lamp is not allowed to burn more than half-way down, such accidents are impossible. Always fill your lamps every morning, then you never need fear an explosion.

Half a teaspoonful of salt added to the oil of a lamp which holds a pint will take away the disagreeable odor sometimes apparent, and it is said to prevent the formation of that dangerous gas. It is a simple remedy, easily applied. It is also asserted that the salt makes the oil last much longer, but we have only hearsay evidence concerning it.

Kerosene is the best antidote for a severe burn or scald. Immerse the injured part in cold water for a moment; dry with a soft cloth, taking care not to rub at all. Then bathe in kerosene, and the terrible pain soon ceases. We know of a little child who put his foot and leg into a pail of nearly boiling water. The above remedy was applied, and in a few minutes the child's screams ceased. We know not of the philosophy of the matter, but we do know that it is the most efficacious remedy for severe burns or scalds in the materia medica.

Queen Victoria has four sons, viz: The Prince of Wales, born in November, 1841; Prince Alfred, Duke of Edinburgh, August, 1844; Prince Arthur William Patrick Albert, May, 1850; and Prince Leopold, April, 1853. The eldest son, with an income of $500 000 a year, and a palace in Pall Mall, (Marlborough Palace, close to St. James,) is heir apparent, and may be expected to succeed his mother as sovereign of the British Empire, in due course. The Duke of Edinburgh, a captain in the royal navy, and now cruising toward India in the steamer Galatea, is heir presumptive to the Grand Duchy of Saxe Coburg Gotha. The Legislature thereof having sanctioned a family arrangement by which, instead of the succession going to the Prince of Wales, as eldest nephew of the reigning Grand Duke, the late Prince Consort's only brother, and childless, it is to come to the Duke of Edinburgh, as the second nephew. The third son, Prince Arthur, will complete his nineteenth year in May, and is a lieutenant in the royal artillery. Prince Leopold, the youngest son of Victoria and Albert, was born in April, 1853. Of these two last the public know very little, beyond the fact that Prince Leopold is a sickly boy.

THE CONNECTICUT ELECTION.

In November last, General Grant carried this State by a majority of some 3 000 votes. At the last election, held a few days ago the Radical candidate for Governor is elected by some 500 majority. The Congressional delegation is equally divided, and the Democrats have gained considerably in the Legislature.

What is the significance of these large Democratic gains? In nearly all of the elections held during the year, there has been a manifest falling off in the Radical vote, showing most clearly, that the popular mind is recoiling from the doctrines of that party, and are dissatisfied with the policy it has pursued and is pursuing towards the South. The people everywhere want quiet. They are thoroughly sick of the bitter and proscriptive animus of Radicalism. They desire, above all earthly things, a return of good feeling among all sections, and with it a return of that old prosperity that once gladdened the hearts of the people. Let the ball keep rolling on, and, after awhile, it may be, the Grant party will realize something of the transitoriness of political glory and honor, and will heed at last the wishes of the American people.

WESTERN NORTH CAROLINA.—A Correspondent of the New York *Tribune*, writing from Asheville, Buncombe County, thus pays a just tribute to that portion of our State. He says:

"There is no section of country, we think, offers more or greater advantages to colonists than the western part of the good old North State. Indeed, here are found all the chief requisites for the comfort and enjoyment of life—a delightful, healthy climate; excellent soft water, rich productive lands, magnificent scenery, no ague and fever, no annoying insects, no political and social disturbances but general quiet, good order and peace among all men. This region is finely adapted to cheese and butter dairies; its products are pronounced equal to the best in the famed Districts of New York and other States. For fruit culture it is unsurpassed. Apples grown in this section are not equaled to any of the United States, and the crop never fails. Corn, wheat, rye, oat potatoes, and the root crop in general, are a success, and tobacco splendid. All kinds of live stock do well, and no better beef can be produced on the natural growth of our mountain pastures. For instance, on the summit of the Ross Mountain, 6,300 feet above tide, where are thousands of acres of the richest pasture from April until October. We know of no section outside of a lime stone belt where lands are more fertile, and of no hill and mountain country where the lands are so little disposed to wash. It is seldom that the steepest hill sides wash. I have observed this, especially in Mitchell and Yancey Counties. Mitchell County has great mineral wealth. Her iron deposits are immense. The iron has been tested and found equal to the best imported Swedish iron for making steel and is thought superior to steel for railroad purposes. It is not so liable to break as steel from the action of frost upon it."

The iron mines are unenveloped, are surrounded by rich lands heavily timbered with all the best hard varieties of wood, while water power is abundant, and railroads are being surveyed and constructed throughout the country. Surely here is the place for enterprising colonies, and they should send their agents down to purchase homes for them. Lands can now be bought from $1 to $5 per acre. The heat in summer does not go over 85 degrees, and the cold in winter not as low as zero. Snow does not fall over eight or ten inches, and does not lay long upon the ground. Roads are generally good, some are excellent."

CHAPEL HILL, April 6, 1869.

Mr. Editor:—My attention has been called to a communication in the *Sentinel* over the name of H. H., in which it is stated, that I had cut down all the sassafras trees about the Mitchell house, except one, to get posts to enclose the lot.

When I came here, six weeks ago, I was told that the well on the lot could not be used; that the water was lime-stone. I learned from a former servant of Dr. Caldwell, that the water had been excellent, but that it had not been used for twenty-five or thirty years; that Dr. Mitchell had taken out the wall and thoroughly cleaned out the well without any improvement in the water. The well was situated among a dozen or more of locust trees. I was satisfied from its history and geography, and from the taste of the water, that it had been injured by the roots of the locust trees.

For the purpose of restoring the water to its former excellence, I had the Locust trees cut down which are the shade trees referred to by your correspondent. I used the timber by increasing the lot as stated. There are a dozen other trees still standing in the yard besides the row of cedars which separates the lot from the campus.

As your publication may make the impression that I have committed wanton waste, I will ask of you the favor to publish this note in explanation.

Very respectfully,
ALEXANDER M. IVER.

Here are the comic illustrated papers making fun of Grant. One has him as Sancho Panza at his first dinner in his Barataria domain, a grave personage standing to his right hand and waving him away from that dish of STEWART, whereof he would fain partake; and as the savory dish, like good Panza's a cuming *olla podrida*, is borne thence, the bearer, having a heinous resemblance to holy Ben, cocks his eye askew at the disappointed ruler. To the other side comes one bearing our Barataria a noble dish of *fish*, whereat Sancho hopes *this* may not be denied him as dangerous to the constitution, for else he is like to perish away with hunger in the sight of unnumbered good things.

When the comic papers take hold of a man, that man's time is come. U. S. being interpreted is universal scoff.—*N. Y. World*

CHARLES' LONDON CORDIAL GIN,
Or Pure Liquor of Juniper Berries.

This favorite brand of Pure London Cordial Gin, has stood the test of time, imitation, piracy, high tariffs and unfair competition, and still enjoys a constantly increasing sale; showing that true merit does not always go unappreciated.

CHARLES' LONDON CORDIAL GIN is offered to the public as a perfectly reliable specific in all cases of DISEASED BLADDER and KIDNEYS. It acts directly on these organs, with a directness and speediness which render it invaluable to persons suffering from GRAVEL, DIABETES INFLAMED BLADDER, scanty and highly colored urine, and in all cases where, from whatever cause, a healthful diuretic is required.

Ladies subject to painful menstruation, can by the use of Cordial Gin a few days previous to, and during illness, obtain great relief. In such instances it should be taken with sugar and warm water.

As a tonic and beverage this Gin is unequaled, as it possesses none of the headache properties to be found in those poisons, now so frequently sold under the names of Gin, Brandy, Whiskey, &c.

He lived a few minutes after being run over. He was lying across the track, and the engineer did not discover him in time to stop the train.—*Charlotte Observer.*

DEATH IN THE JAIL.—Yesterday, a negro man named Henry Latham, incarcerated for committing a larceny on Bay River some time since, died in Craven Street jail. The cause of death was the exposure to which Latham subjected himself in his futile efforts to elude the officers of the law, when they sought to apprehend him for the theft. Lying in the swamps soon overcame a naturally feeble constitution, and compelled him to deliver himself into the hands of justice.—The effect of the exposure soon showed itself and sapped the vitals of the man, who was confined in Craven Street jail only to die. He was awaiting trial.—*Newbern Journal of Commerce.*

BRIEF NEWS NOTES.

A series of letters has lately appeared in the London *Times* from a special correspondent in Paris, which cannot have failed to attract the attention and admiration of every reader for their social and political sagacity. No wonder; for it turns out that their author is W. Pierson Paradol, one of most accomplished journalists of France, for, indeed, of the world.

From Pittsburg we get the news that an effort is making by the congregation of Plymouth Church to send Beecher abroad. Ten thousand dollars is reported to have been raised already, and doubtless many patriotic persons, not belonging to Plymouth Church, would be happy to subscribe to an object so worthy and so probably productive of happiness to the United States of America.—*N. At a late fire in London, while the engines were discharging their contents against the front of a house, an inscription on it became nearly obliterated. The germs of scarlet fever will remain for months in blankets, and in articles of clothing which are laid away without being cleansed. In the London Lancet a case is mentioned where new blankets, having been infected by scarlet fever, were put away unused in a wardrobe. Fourteen months afterward the mistress of the house had these blankets taken out and put upon her own bed; in a few days she took the fever and died.

On Sunday last a duel was fought in South Carolina, immediately opposite Augusta, Ga., between two negroes of the latter city, named Rhodes and Sullivan. A great crowd of whites and blacks crossed the river to witness the spectacle. The combatants were evidently frightened, but when they reached the ground they managed to go through five exchanges of shots. In the last exchange Rhodes had the middle finger of his right hand shot off, when several gentlemen interfered and stopped the fight, and the *affaire d'honeur* closed, the chivalrous duellists going home quite pleased with themselves, and much admired by their sable brethren.

TELEGRAPHIC.

Wednesday Midnight Dispatches.

FROM WASHINGTON

WASHINGTON, April 7.—The following message of the President was received by Congress at 4 o'clock this afternoon:

To the Senate and House of Representatives:

While I am aware that the time in which Congress proposes now to remain in session is very brief, and that it is the desire, as far as is consistent with the public interest to avoid entering upon the general business of legislation, there is one subject which so deeply concerns the welfare of the country that I deem it my duty to bring it before you.

I have no doubt that you will concur with me in the opinion that it is desirable to restore the States which were engaged in the rebellion to their proper relations to the Government and the country at as early a period as the citizens of those States shall be found willing to become peaceful and orderly communities, and to adopt and maintain such constitutions and laws as will effectually secure the civil and political rights of all persons within their borders. The authority of the United States Government which has been vindicated and established by its military power must undoubtedly be asserted for the absolute protection of all its citizens in the full enjoyment of the freedom and security which is the object of a republican government. But whenever the people of a rebellious State are ready to enter in good faith upon the accomplishment of this object, in entire conformity with the constitutional authority of Congress, it is certainly desirable that all causes of irritation should be removed as promptly as possible, that a more perfect Union may be established and the country be restored to peace and prosperity.

The Convention of the people of Virginia, which met in Richmond on Tuesday, December 3d, 1867, framed a Constitution for that State which was adopted by the Convention on the 17th of April, 1868, and I desire respectfully to call the attention of Congress to the propriety of providing a law for the holding of an election in that state at some time during the months of May or June next under the direction of the military commander of the District, at which the question of the adoption of that Constitution shall be submitted to the citizens of the State, and if this should seem desirable, I would recommend that a separate vote be taken upon each parts as may be thought expedient, and that at the same time and under the same authority, there shall be an election provided under such Constitution, and that the Constitution, or such parts thereof as shall have been adopted by the people, be submitted to Congress on the first Monday of December next for its consideration, so that if the same is then approved, the necessary steps will have been taken for the restoration of the State of Virginia to its proper relation to the Union.

I am led to make this recommendation from the confident hope and belief that the people of that state are now ready to co-operate with the national government in bringing it again into such relations to the Union as it ought, as soon as possible to establish and maintain and to give to all its people those equal rights under the law which were asserted in the Declaration of Independence, in the words of the most illustrious of its sons.

I desire also to ask the consideration of Congress to the question whether there is not just ground for believing that the Constitution framed by a Convention of the people of Mississippi for that State and once rejected, might not be again submitted to the people of that State in like manner, and with the probability of the same result.

LIFE INSURANCE

NATIONAL

LIFE INSURANCE COMPANY,

OF THE

UNITED STATES OF AMERICA,

WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,

$1,000,000,

PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his death, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which insures no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is undoubtedly able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so befuddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but ACTUARIES, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he runs into the plan adopted by the

NATIONAL

LIFE INSURANCE COMPANY,

U. S. A.,

and finds just what he wants:

An ALL CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to pay, no interest to pay; no notes to renew; no Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guarantee fund, that its contracts will be fulfilled, and like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,326 policies.

Amount insured,	$10 000,000 00
Total Premiums,	350,117 03

The whole number issued by the Connecticut Mutual in the first year of its existence was 802

By the Mutual Benefit of New Jersey,	691
" New England Mutual,	349
" Phœnix Mutual,	335
" Massachusetts Mutual,	313
" Equitable of New York,	277

The Mutual Life, of New York, in the first year of its existence, only issued 470 policies.

In its 10th year,	4 369 "
And in its 20th year,	2,819 "

this latter being 480 less than was issued by the NATIONAL in its first seven months.

CAUTION! WE desire to warn the dealers in, and consumers of Snuff generally, that since the war, certain Tobacco Manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages and imitate our Trade Marks so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."

In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Fall Snuff (High Toast,) or P. ash Snuff (Extra Scotch) is desired.

NOTICE FOR PREVENTING THIEVES.

The Patentee claims for this Soap the following advantages which are clearly set forth in the Letters Patent, to-wit:

First, it can be manufactured at less than half the cost of any soap ever produced.

Secondly, it may be used successfully in any kind of water—cold or hot, hard or soft

Thirdly, it so modifies the action of boiling water on woollen goods that their fibres do not contract under its influence, and your woollen garment is as large after boiling as before.

Fourth, it does not decompose the colors of goods, and your prints and stripes are as brilliant after washing as before.

Fifth, the goods do not require any rubbing or patent washing machine—all that is necessary is a few minutes boiling and a good rinsing.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

It will be the zealous and fearless advocate of the CONSTITUTION of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of the country to that honored standard, as the only guarantee of National prosperity.

It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

THE LATEST NEWS

From every quarter, both by mail and telegraph will be carefully collated and presented.

Full and correct market and financial reports will be given.

And, in one word, no effort will be spared to make the SENTINEL, in all respects, a reliable

FIRST CLASS NEWSPAPER.

THE OLD RALEIGH & GASTON RAIL ROAD THE SHORTEST, QUICKEST, SAFEST AND BEST LINE, NORTH AND SOUTH, TO BE LEFT OUT IN THE COLD, UNLESS SHIPPERS SPECIALLY SAY VIA. R. & G. R. R.!

WE inaugurated and are the *Great Through Inland Air Line Route* to all the Northern Markets, and have successfully worked the Line to the entire satisfaction of Shippers, North and South, for the last ten years, as the *ten Thousand* Shippers in North and South Carolina will testify. We paid the State near Seven Hundred Thousand Dollars for her interest in this Road—thereby saving the people from Taxation for all time to come $80,000 per year; and we unhesitatingly declare that we can and will give more dispatch to all points, North and South, than any other Line.

NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.

THE AUTOMATIC

CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any stove or range, in any boiler, and is the LOW PRICE of the article places it within the reach of every family.

This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.

The hot suds and steam, by the action of heat, are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest lace to the bed-blanket. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.

The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and eradicating the dirt WITHOUT LABOR OR FRICTION.—A thorough rinsing finishes the process.

Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters of approval, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOUGEE & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the State
